

Introducing the T300, Brought to you in association with Generation Juice

Chilled dispense, transformed

Juices, Cordials, Healthy Drinks

Taste coffee Taste tea Taste water Taste juice Taste mash

### Easy on the eye

The T300 will transform your juice experience. Gloss white & with optional custom spot-colour branding, the T300 is complementary yet distinctive.

### Versatility and style

The T300 adapts to your surroundings. Portion control, free flow, jugs, glasses, bottles... High or low volume. The T300 stands out from the rest.

### Sleek yet powerful

Small and light yet with 120 chilled litres per hour - peak demand made easy.  
H:66cm W:32cm  
D:54cm Wt:44kg

### Always fresh, always clean

Keep your dispense area clean and professional, the T300 way. The drip bowl & splash zone are dishwasher safe. All juice contact points are replaced with each new fill.

### Built to last

35 years' experience ensures optimum design & functionality. Filtered water & advanced patented technologies provide fresh & superior juices and drinks. Sparkling or still, at the touch of a button.

**Easy on the eye**  
 The T300 will transform your juice experience. Gloss white & with optional custom spot-colour branding, the T300 is complementary yet distinctive.

**Sleek yet powerful**  
 Small and light yet with 120 chilled litres per hour - an impressive output.  
 H:66cm W:32cm  
 D:53cm Wt:44kg

**Precisely does it**  
 Revolutionary, exacting, patented **Tunedose™** technology. Unique tamper-proof dose & mix system. Guaranteed in-cup consistency ensures continual quality & brand integrity

**Please do touch**  
 Our touch-screen app makes the T300 simple & fun to use for all. Bespoke in-app advertising is just a swipe away.

**Plenty, not empty**  
 Quick-view concentrate, level alerts, plus low & empty on-screen warnings. The T300 is always ready to flow, ensuring you serve perfect drinks at every touch.

**Mix it up**  
 Customer friendly central dispense enables a menu of cocktails, mocktails, mixers, juices, pressés, and juice drinks, all from the smallest unit on the market.

**As seen on screen**  
 The T300 puts you in control with usage, yield and performance data - as easy as 1-2-3.

**Built to last**  
 35 years' experience ensures optimum design & functionality. Filtered water & advanced patented technologies provide fresh & superior juices and drinks. Sparkling or still, at the touch of a button.

**Always fresh, always clean**

### Tailored to your needs...

The T300 will certainly fit into your environment. Its gloss white exterior combined with accent colour & branding options ensure it will look right at home. Cool & contemporary, fun & family friendly or classic and understated, the T300 cleverly adapts to your style. The door can display your brand or design & side grills can be coloured to complement your restaurant or surrounding environment.

Even the touch screen app is customisable, allowing your identity – or advertising and promotions – to be easily communicated to your customers. The result is that the little T300 is easy on the eye and our TrueChameleon fits in beautifully and complements your brand.

Here at generationJuice, green is definitely the colour.  
Other dispensers are simply green with envy.

**Production**

No transporting of juice-water. Packaging reduced by 80%. Operator handling reduced by 65%. Local manufacturing reduces distribution costs.

**Scale**

Smallest and lightest unit of its kind. Pioneering performance thanks to Truedose™ mix & dose technology. Waste and inaccuracy is prevented. Customer satisfaction is improved.

**TechLess™**

Unique modular design. Fast and easy auto-install. Quick-fix, simple module replacement & safe, offsite repairs. No on-site engineers or vans with their costs & carbon footprint.

**Longevity**

We recycle & regenerate; the circular economy. Robust modular parts increase usable life. Simple repair, easy updates.

**Eco-energy**

Truedose™ software with sensors manage kWh efficiency. No fridge energy required for our ambient storage juices. 3rd generation technologies cut stand-by energy.

**Ethos & Educate**

We actively promote sustainable practices. Our suppliers have a shared responsible approach to planet care.
